

Press Release

SCHIPHOL, 26 MAY 2020

Air France KLM Martinair Cargo's cargo network continues to recover, serving 67 long-haul destinations from this week

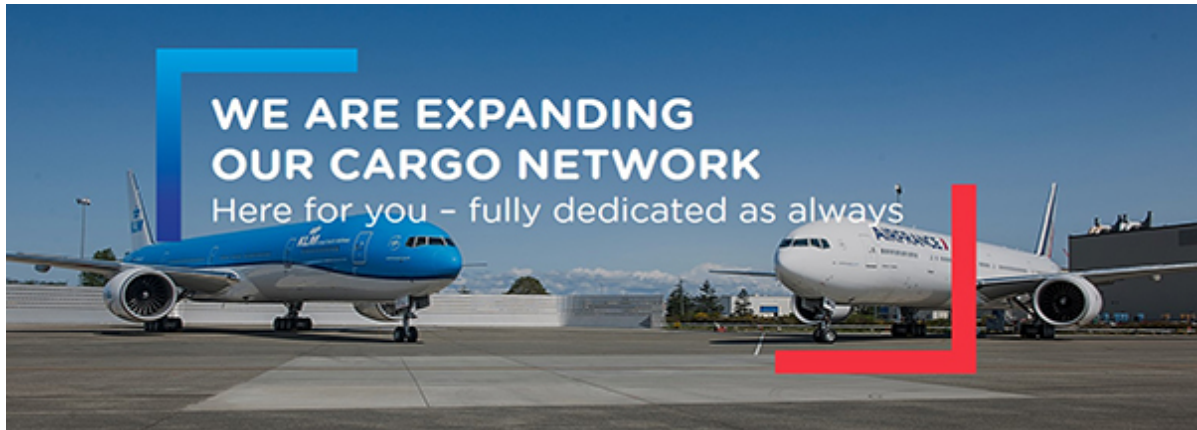

The COVID-19 crisis has had a major impact on international aviation worldwide. Fortunately, in recent weeks, we have been able to expand our network again, step-by-step. The number of destinations and flight frequencies continues to grow this week.

We've resumed flights between Singapore and Paris Charles de Gaulle, and between Accra and Amsterdam Schiphol (AMS). This week, we'll be adding Bangkok, Panama City and St Martin to the route network operating out of Paris Charles de Gaulle (CDG).

Flight frequencies have also been increased for a large number of other destinations. From Paris Charles de Gaulle to New York, Mexico City, Rio de Janeiro, Conakry, Nouakchott, Bangui, Abidjan, Nairobi, Shanghai and Tokyo. And from Amsterdam Schiphol to New York, Los Angeles, Houston, Toronto, Buenos Aires, Dubai, Mumbai, Bangkok, Singapore, Kuala Lumpur, Manilla, Osaka and Tokyo.

"With the above changes, our regular range of wide-body belly and full-freighter services now includes 304 weekly frequencies to 67 destinations. Based on market demand, we will continue to grow our cargo network by adding frequencies or (re)opening destinations that are relevant for our customers", according Gertjan Roelands, SVP Sales & Distribution.

We offer our customers a wide range of transport options such as: belly capacity on passenger flights, cargo-only flights on passenger aircraft, cargo-in-cabin on passenger aircraft, regular full-freighter flights and, finally, a wide range of charter options on our passenger aircraft and full freighters.
